

Hetrix Tools for Uptime/Downtime Monitor

The screenshot shows the HetrixTools Uptime Monitors dashboard. The left sidebar contains navigation links: Dashboard, Uptime Monitors (selected), Blacklist Monitors, Blacklist Check, Status Pages, Contact Lists, White Label, and Sub-Accounts. The main content area displays the 'Uptime Monitors' section with a search bar, pagination (Page 1 of 1, View 10 monitors), and a table of monitors. A single monitor is listed for 'gentingplantations.com' with 100.0000% uptime, a website type, and an 'Active' status.

Name	Uptime	Type	Up/Down	Added	Check	Contact	Status	Action
gentingplantations.com	100.0000%	Website	↑ 57min 3sec	58min ago	23sec ago	Default Contact	Active	[Icons]

The screenshot shows the 'Recent History' page for 'gentingplantations.com'. It features four summary cards: 'Online Since 58min ago', '100.0000% Overall uptime', '1792.56ms Recent avg. load time', and 'Website Monitor'. Below these is a 'MONITOR DETAILS' section with a table of uptime statistics and a list of monitored locations (New York, London, Singapore, Tokyo).
